# SAFETY DATA SHEETS

Version: 1.0

Creation Date: Aug 13, 2017

Revision Date: Aug 13, 2017

#### 1. Identification

## 1.1 GHS Product identifier

**Product name** 3-Methacryloxypropyltrimethoxysilane

#### 1.2 Other means of identification

Product number

Other names MAPTMS

### 1.3 Recommended use of the chemical and restrictions on use

**Identified uses** For industry use only. Adhesives and sealant chemicals, CBI, Paint

additives and coating additives not described by other

categories, Processing aids, specific to petroleum production

**Uses advised against** no data available

## 1.4 Supplier's details

**Company** Nanjing Chemical Material Corp.

Address No.5 New Model Rd, Nanjing, 210009, China

 Telephone
 86-25-52337978

 Fax
 86-25-83304509

 Web
 www.njchm.com

# 1.5 Emergency phone number

**Emergency phone number** - 86-25-52337978

Service hours Monday to Friday, 9am-5pm (Standard time zone: UTC/GMT +8

hours)

## 2. Hazard identification

#### 2.1 Classification of the substance or mixture

Not classified.

## 2.2 GHS label elements, including precautionary statements

Pictogram(s) No symbol.

Signal word No signal word.

**Hazard statement(s)** none

**Precautionary statement(s)** 

Prevention none
Response none
Storage none
Disposal none

#### 2.3 Other hazards which do not result in classification

none

## 3. Composition/information on ingredients

#### 3.1 Substances

Chemical name	Common names and synonyms	CAS number	EC number	Concentration
3-	3-	2530-	none	100%
Methacryloxypropyltrimethoxysilane	Methacryloxypropyltrimethoxysilane	85-0	none	100/0

#### 4. First-aid measures

# 4.1 Description of necessary first-aid measures

#### General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

#### If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

#### In case of skin contact

Wash off with soap and plenty of water. Consult a physician.

#### In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

#### If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

## 4.2 Most important symptoms/effects, acute and delayed

no data available

# 4.3 Indication of immediate medical attention and special treatment needed, if necessary

/SRP:/ Immediate first aid: Ensure that adequate decontamination has been carried out. If patient is not breathing, start artificial respiration, preferably with a demand-valve resuscitator, bag-valve-mask device, or pocket mask, as trained. Perform CPR as necessary. Immediately flush contaminated eyes with gently flowing water. Do not induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain an open airway and prevent aspiration. Keep patient quiet and maintain normal body temperature. Obtain medical attention. /Silane, Chlorosilane, and Related Compounds/

## 5. Fire-fighting measures

## 5.1 Extinguishing media

## Suitable extinguishing media

Use water spray to cool fire-exposed containers. Use water spray, dry chemical, carbon dioxide, or appropriate foam.

## 5.2 Specific hazards arising from the chemical

no data available

## 5.3 Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

#### 6. Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8.

## **6.2** Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

## 6.3 Methods and materials for containment and cleaning up

SRP: Wastewater from contaminant suppression, cleaning of protective clothing/equipment, or contaminated sites should be contained and evaluated for subject chemical or decomposition product concentrations. Concentrations shall be lower than applicable environmental discharge or disposal criteria. Alternatively, pretreatment and/or discharge to a permitted wastewater treatment facility is acceptable only after review by the governing authority and assurance that "pass through" violations will not occur. Due consideration shall be given to remediation worker exposure (inhalation, dermal and ingestion) as well as fate during treatment, transfer and disposal. If it is not practicable to manage the chemical in this fashion, it must be evaluated in accordance with EPA 40 CFR Part 261, specifically Subpart B, in order to determine the appropriate local, state and federal requirements for disposal.

# 7. Handling and storage

## 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Avoid exposure - obtain special instructions before use. Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.

## 7.2 Conditions for safe storage, including any incompatibilities

Keep away from sources of ignition. Store in a cool, dry place. Store in a tightly closed container. Store protected from moisture. Store under nitrogen.

# 8. Exposure controls/personal protection

## 8.1 Control parameters

#### Occupational Exposure limit values

no data available

#### **Biological limit values**

no data available

## 8.2 Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

## 8.3 Individual protection measures, such as personal protective equipment (PPE)

#### Eye/face protection

Safety glasses with side-shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

## Skin protection

Wear impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique(without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

#### Respiratory protection

#### Thermal hazards

no data available

# 9. Physical and chemical properties

Physical state colorless transparent liquid

**Colour** Liquid

**Odour** no data available

Melting point/ freezing

point

190°C(lit.)

<-50°C

Boiling point or initial boiling point and boiling

range

Flammability no data available Lower and upper explosion no data available

limit / flammability limit

Flash point 92°C

Auto-ignition temperature 265°C (509 deg F)

Decomposition temperature no data available
pH no data available
Kinematic viscosity no data available

**Solubility** Sol in acetone, benzene, ether, methanol, and hydrocarbons.

150tt

log Kow = 0.75 (est)

Partition coefficient noctanol/water (log value)

Vapour pressure 0.089mmHg at 25°C Density and/or relative 1.045g/mLat 25°C(lit.)

density

Relative vapour density no data available Particle characteristics no data available

# 10. Stability and reactivity

## 10.1 Reactivity

no data available

## 10.2 Chemical stability

Stable under recommended storage conditions.

#### 10.3 Possibility of hazardous reactions

Combustible; moderate fire risk

## 10.4 Conditions to avoid

no data available

## 10.5 Incompatible materials

Incompatibilities with other materials: Strong oxidizing agents, strong acids, strong bases.

## 10.6 Hazardous decomposition products

When heated to decomposition it emits acrid smoke and irrtating fumes.

# 11. Toxicological information

## Acute toxicity

Oral: LD50 Rat oral 23.5 g/kg
Inhalation: no data available
Dermal: no data available

Page 4 of 7

#### Skin corrosion/irritation

no data available

#### Serious eye damage/irritation

no data available

#### Respiratory or skin sensitization

no data available

#### Germ cell mutagenicity

no data available

#### Carcinogenicity

no data available

#### Reproductive toxicity

no data available

#### **STOT-single exposure**

no data available

## **STOT-repeated exposure**

no data available

#### **Aspiration hazard**

no data available

# 12. Ecological information

# 12.1 Toxicity

- Toxicity to fish: no data available
- Toxicity to daphnia and other aquatic invertebrates: no data available
- Toxicity to algae: no data available
- Toxicity to microorganisms: no data available

#### 12.2 Persistence and degradability

no data available

## 12.3 Bioaccumulative potential

An estimated BCF of 3.2 was calculated for trimethoxysilylpropyl methacrylate(SRC), using an estimated log Kow of 0.75(1) and a regression-derived equation(2). According to a classification scheme(3), this BCF suggests the potential for bioconcentration in aquatic organisms is low(SRC).

5KYSOft

#### **12.4** Mobility in soil

Using a structure estimation method based on molecular connectivity indices(1), the Koc of trimethoxysilylpropyl methacrylate can be estimated to be 1,700(SRC). According to a classification scheme(2), this estimated Koc value suggests that trimethoxysilylpropyl methacrylate is expected to have low mobility in soil.

#### 12.5 Other adverse effects

no data available

## 13. Disposal considerations

#### 13.1 Disposal methods

#### **Product**

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

#### Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

## 14. Transport information

#### 14.1 UN Number

ADR/RID: UN3082 IMDG: UN3082 IATA: UN3082

## 14.2 UN Proper Shipping Name

ADR/RID: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. IMDG: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. IATA: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.

## 14.3 Transport hazard class(es)

ADR/RID: unknown IMDG: unknown IATA: unknown

#### 14.4 Packing group, if applicable

ADR/RID: unknown IMDG: unknown IATA: unknown

#### 14.5 Environmental hazards

ADR/RID: no IMDG: no IATA: no

## 14.6 Special precautions for user

no data available

### 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

no data available

#### 15. Regulatory information

# 15.1 Safety, health and environmental regulations specific for the product in question

Chemical name	Common names and synonyms	CAS number	EC number
